PERSONAL STATEMENT

Curious and driven Computer Science undergraduate passionate about Full-Stack and Software Engineering. Skilled in Java, OOP, Data Structures & Algorithms, with hands-on experience in Spring Boot, Node.js, Express.js, React, React Native, JavaScript, HTML, CSS, MySQL, and MongoDB. Focused on building responsive, scalable applications and writing clean, maintainable code to solve real-world problems.

Experience

Junior Web Developer (Freelance)

Sparkle Media – Remote

June 2025 – Present

- Developed and deployed a responsive website for a client based on business requirements.
 - Designed and implemented front-end interfaces using HTML, CSS, and JavaScript.
 - Ensured mobile responsiveness and cross-browser compatibility.
 - Maintaining and updating website features based on client feedback.
-

PROJECTS

2026 - IIT CONNECT Application

Stack : React, JavaScript, Node.js, Express.js, MongoDB, Cloudinary, Expo, TypeScript [Github](#)

- Developed a campus mobile application as part of the Software Development Group Project (SDGP). IIT Connect was designed to streamline university life for IIT students by providing a centralized platform for campus-related activities and information.

2026 – Estate Agent Application

Stack : React, Vite, JavaScript, HTML, CSS, Bootstrap, React Router DOM [Github](#)

- Built a responsive property search application with advanced filtering, interactive property details, favorites, drag-and-drop features, and secure client-side functionality using React.

2026 – Smart Campus API

[Github](#)

Stack : Java, JAX-RS, Grizzly Server, Maven, REST API, JSON, ConcurrentHashMap

- Built a scalable RESTful API for university facilities management with secure room and sensor tracking, thread-safe data handling, nested resource architecture, global logging, and advanced exception management.

2026 – Graph Processing Solution

Stack : Java, CSV Parsing, Graph Algorithms [Github](#)

- Built a directed graph processing utility that parses CSV data, detects DAG structures, calculates graph metrics, and implements PageRank for advanced graph analysis.

2025 - Prestige Auto Detailing Website

[Prestige Auto Detailing](#)

Stack: HTML, CSS, JavaScript [Github](#)

- Developed a fully responsive website for a car detailing business in New Zealand. Implemented an interactive booking system, allowing customers to book services online. Designed the UI/UX to improve customer engagement and increase business visibility.

2025 - Personal Finance Tracker

Stack : Java, Spring Boot, MySQL, HTML, CSS, JS, Bootstrap

[Github](#)

- Built a full-stack finance tracking system with user login, transaction management, and financial summaries.

2024 - Traffic Data Histogram

[Github](#)

Stack : Python, OOP, CSV Processing

- Designed a Python program to analyze vehicle counts from two junctions and display traffic patterns using histograms.

2024- Aurifera Gems Website

[Aurifera Gems](#)

Stack : HTML, CSS

[Github](#)

- Developed a business website to increase brand awareness for a gemstone company.

EDUCATION

BSc (Hons) Computer Science – IIT (Informatics Institute of Technology)

(2024 -Present)

Undergraduate

Modules Completed in 1st Year

- Software Development (Java, Python)
- Mathematics for Computing
- Trends in computer Science
- Computer System fundamentals
- Web Designing and Development

Modules Completed in 2nd Year

- Object Oriented Programming (Java) - 66.5%
- Database System - 83.5%
- Advance Client Side - 74%
- Software Development Group Project - 80%
- Client-Server Architectures - Pending
- Algorithms: Theory, Design and Implementation - Pending

Foundation Certificate in Higher Education- IIT (Informatics Institute of Technology)

(2024)

- Merit

All Saints' College, Galle

(2023)

- G.C.E O/L – 2A, 2B, 5C

CERTIFICATIONS

- Professional Certificate in Java programming
- Professional Certificate in Artificial Intelligence
- Machine Learning : AI python & R + Chat-GPT Prize
- Java Object-Oriented Programming (LinkedIn Learning)
- Introduction to Cloud Security (Simple Learn)

TECHNICAL SKILLS

- Languages: JavaScript, Java, Python, TypeScript, SQL,
- Databases: MySQL, MongoDB, PostgreSQL, Cloudinary
- Frontend: React, Next.js, HTML, CSS, TailwindCSS, Bootstrap, Figma
- Backend: Node.js, Spring Boot,
- Project Management: Git Hub ,IntelliJ IDEA, ClickUp

SOFT SKILLS

- Teamwork
- Problem-Solving
- Communication
- Adaptability
- Time Management

PARTICIPATIONS

- Volunteer – Haxmas Journey 2024 Grand Finale (Ascentic)**
Contributed as a volunteer to support the successful execution of the event
- Industry Visit – Virtusa Sri Lanka (IEEE IIT Insight Gen)**
Participated in an industry visit to Virtusa to gain exposure to real-world tech practices.
